

Dear Patient

We would like to advise you of changes to the packaging and tablet appearance of the following products with immediate effect:

Amlodipine besilate	Norvasc tablets 5 mg tablets
Amlodipine besilate	Norvasc tablets 10 mg tablets

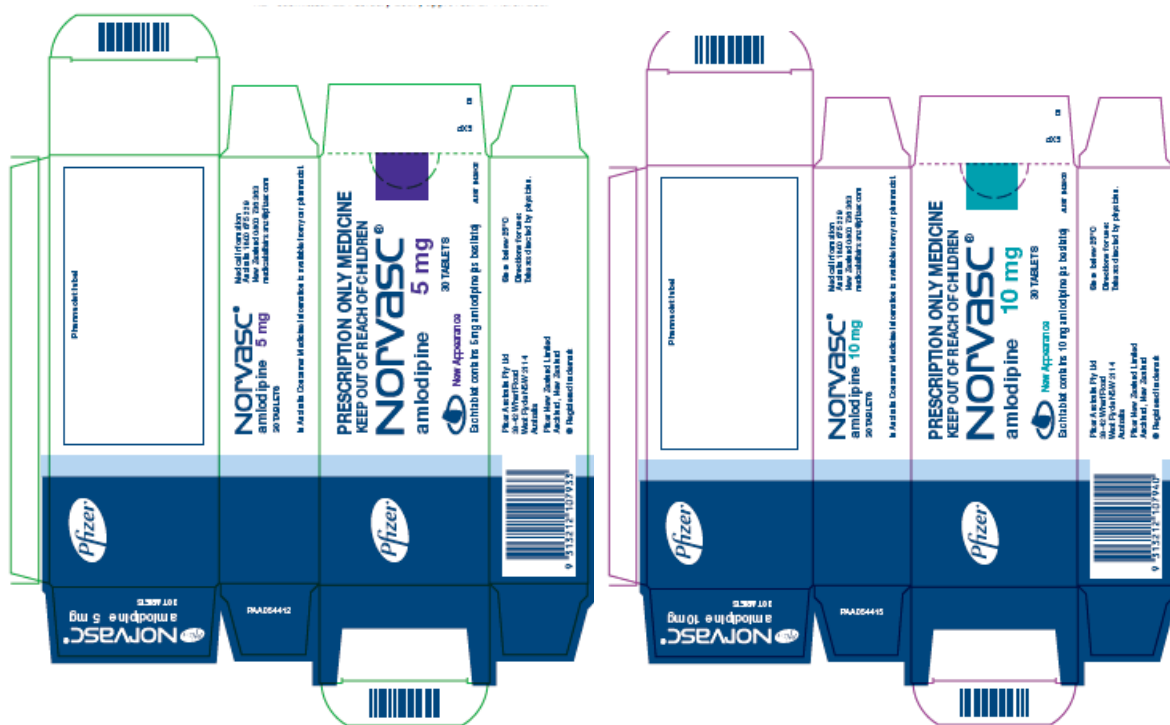

Please note that the formulation of the tablets has not changed.

The changes include

- carton artwork design and size
- blister pack appearance
- tablet appearance

Carton artwork design and size

Below please find depictions of both the new 5 mg and 10 mg cartons. You will note that the colours of the cartons have been slightly modified. The cartons are also slightly longer.

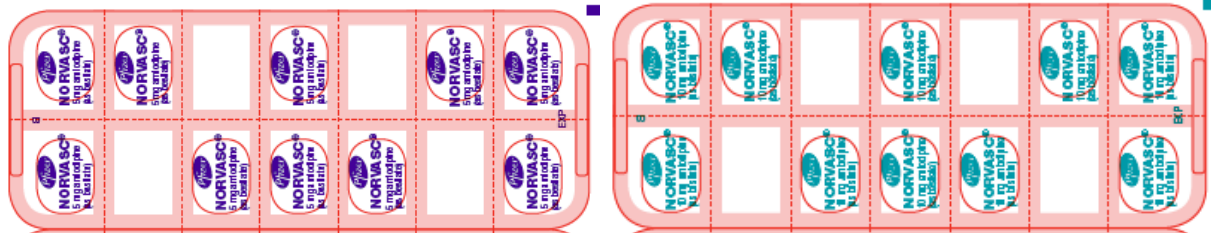

PFIZER AUSTRALIA © 2018 pfizer.com.au

ABN: 50 008 422 348 38-42 Wharf Road, West Ryde NSW 2114, AUSTRALIA

Blister pack appearance

Below please find depictions of both the new 5 mg and 10 mg blisters. You will note that four places in the blisters are intentionally left empty. This is due to the global harmonisation of manufacturing processes, and each blister strip for Australia is meant to contain ten tablets. The blisters are also slightly longer. Note that foils are silver – the pink in the illustrations is for definition only.

Tablet appearance

There have also been small changes to the appearance / size of the tablets.

Your pharmacist will be able to provide further information as required.
